The electric light plant has a capacity of 300 arc and 5,000 incandescent lights. The front of the station extends from Eighteenth to Twentieth streets, a distance of 600 feet. The grand hall, the golden arch, the grand stairway and waiting rooms are features of the station. well worthy of a separate article in themselves. There is also a tine hotelthe Terminal as a part of the station structure, which is conducted on modern

This great structure is the arriving and departing point for all the 320 passenger trains daily. Twenty-four railraads run into the great station, taking on passengers from and to every state in the Union.

This station is the property of the Terminal Railroad Association, and is the only passenger depot in St. Louis where through business is handled. There are many local and suburban stations owned by the several railroads and |24. by the Terminal Company, where only suburban and local trains stop to take on and deliver passengers. With the 28. Tritt, George. 29. Comer, Henry. exception of balf a dozen suburban trains, all passenger trains coming into St. Louis enter the Umon Station.

Besides owning the magnificent depot, the Terminal Railroad Association also oans the great Eads Bridge-one of the engineering wonders of the nineteenth century. It also operates over the Merchants' Bridge through an agreement entered into between the Terminal and Merchants' Bridge Companies. -Globe-
